<b>Description</b>			
WQMA was experiencing technical difficulty issues with broadcast the last few races of the A mains. Possibly caused by overheating of the broadcast computer. perhaps we need a message button that will post an alert over the broadcast that lets the viewers know that there is a broadcast issue(not Moscore issue) Like 1) "we are experiencing Technical difficulties with the broadcast equipment, please be patient" 2)"our Race broadcast will start in approximately 30 minutes" 3) "Sorry folks that was the last race of the day, you will have to wait and tune in to next broadcast"
